

NEHA SOHAIL

PRODUCT DESIGNER

📍 Washington, DC P: 571-225-3919 E: nsohail92@gmail.com

Product designer at Meta building the promotion platform behind every campaign that reaches billions across Facebook, Instagram, WhatsApp, and Messenger.

A systems thinker who thrives where the problem is messy and the path forward isn't obvious — zooming out to see how things connect, then zooming in to get the details right. Leads teams, drives strategy, and mentors designers along the way.

EXPERIENCE

2022 to present

PRODUCT DESIGNER | META

Lead designer for Meta's campaign creation and launch platform — an internal tool product teams use to build and ship promotions to billions of people across Facebook, Instagram, WhatsApp, and Messenger.

- Shipped an AI-powered campaign workflow that reduces campaign creation from hours to minutes.
- Standardized ad templates across Meta's family of apps to ensure a consistent user experience at scale.
- Own product design, content design, and UX research across the full campaign creation and launch experience.

2017 to 2022

DESIGN MANAGER | CAPITAL ONE

Grew from Senior Associate to Design Manager over 5 years, leading design for customer-facing banking products.

- Designed the end-to-end experience for Eno, Capital One's AI assistant, driving 50%+ lift in feature adoption and \$1M+ in savings.
- Created Capital One's first enterprise design system from the ground up, defining reusable components, patterns, and usage guidance across native and web platforms.
- Led design for account setup and core banking flows used by millions of customers.
- Managed and mentored a team of two designers on the Enterprise design team.

2013 to 2017

UI DEVELOPER | THROUGHLINE, INC

Bridged design and engineering by designing and building AngularJS applications for clients including PepsiCo, U.S. Navy, and USPS.

- Collaborated directly with creative directors and CEO to deliver client products.

2012

GRAPHIC INTERN | THE WASHINGTON FAMILY MAGAZINE

Designed print layouts independently and supported the team through fast-paced production cycles.

- Created the December issue's table of contents, article pages, and ad layouts.
